"We strive to empower individuals and families by helping them find healing, understanding, and hope while providing a safe and supportive environment."

September 9, 2016

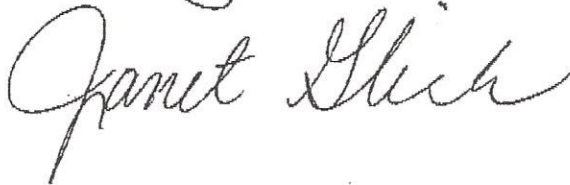

Dear Jill Johnson,

On Thursday, September 8, 2016, Kiyah Miller's mother (Cindi Miller) came to school with some balloons for Kiyah at 1:30 P.M. Kiyah was called out of class while the office looked up Kiyah's information. Kiyah came around the corner right when we realized that Cindi was not to have any contact with her. Kiyah did see her mother and spoke with her for a few minutes. Kiyah and her mother were never unsupervised. Two witnesses were in the room while her mother was talking to her. The conversation was overheard by one of the witnesses. Cindi told Kiyah that she loved her and that they would get together again soon. She was with Kiyah for approximately 5 minutes and then left the building. Grandmother was called immediately to inform her that Cindi had just been here at school. Grandma (Carol Simonsen) contacted the Caseworker and Attorneys connected to her case. The school now has proper documentation regarding the court order and visitation rights of Cindi Miller. She has only educational rights at this time. If Cindi comes again, the office knows that she can only talk to someone regarding her education and that she is not allowed to visit with Kiyah without it being supervised and arranged with DHHS.
